Draft Electricity (Rights of Consumers)(Amendment) Rules,2021-Reg

Dear Sir,

With refrence to the aforesaid Draft Amendment Rules under section 176 of the Electricity Act-2003, to make rules may be called **The Electricity (Rights of Consumers)(Amendment) Rules 2021**, we put our comments in writing as below:

- 1) That, the proposed Net-Metering clause in section (ja) whereby solar energy exported to the Grid from RTSPV of a Prosumer is deducted from import units from the Grid, and excess if exported is carried forwarded to next billing cycle. Is required and it should be mandatory of all the State Electricity Regulatory Commision.
- 2) That, the State Electricity Regulatory Commision should **NOT** be given discretionary powers to make amendments in the **The Electricity (Rights of Consumers) (Amendment) Rules- 2021**
- 3) That, while substituting Sub-Rule (4) of rule 11 of the Pricinciple rules word “Net metering” should be omitted in entirely from all the paragraphs.
- 4) That, if at all, **you** are sincere in promoting On Grid Solar, you will have to allow Net Metering in all the segments, and again we emphasise that State Electricity Regulatory Commision should **NOT** be given discretionary powers to make any amendments in the **The Electricity (Rights of Consumers) (Amendment) Rules- 2021**

We hope/request/ demand that our comments will be looked into with reason and will be implemented upon before releasing the Gazatte.

A swift action/email as always will be appreciated.

Yours Sincerely

संचित गर्ग- 9415019322

(सचिव -यूपीसेडा)
